1. What the Limited Warranty Covers

Easi-Serv Products builds its products to the highest possible standards. All of our products are inspected, thoroughly tested and adjusted for normal use prior to leaving the factory. We recognize that occasionally problems can occur with any new product, so we are providing you with a limited warranty that covers manufacturing defect in your product. These can occur during normal use and can begin during manufacturing by faulty materials, workmanship or factory preparation. The limited warranty covers specific components in your product for different periods of time, as shown in the chart on the back of this page.

2. What will Easi-Serv do?

Warranty work covers the cost of all parts and labour needed to repair or replace any Easi-Serv supplied item that proves defective in material, workmanship or factory preparation. These repairs or replacements (parts and labour) will be done by Easi-Serv and/or an agent of Easi-Serv at no charge using new or remanufactured parts. Please note all warranty work must be performed by an authorized Easi-Serv service representative. Any service performed by an unauthorized agent during the warranty period or any modifications made will VOID the warranty.
